Experience

IT Coordinator, RezNet; London, Ontario, Canada

2015 - 2018

- Diagnosed and solved complex wired and wireless internet connection issues for customers of the ISP
- Trained and managed student teams for university's Internet Service Provider to diagnose and troubleshoot internet connection issues; efforts contributed to drastically improved customer satisfaction rates
- Developer new booking system in **Microsoft Excel** to handle high volumes of customer requests; resulted in increased efficiency of operations and allowing more appointments to be booked per day

Software Developer Intern, SDR Trading Ltd.; Bridgetown, Barbados

May 2017 - October 2017

- Developed web application to consolidate various company processes into a single dashboard using **HTML, CSS, JavaScript, AngularJS, Python, and Django**; significantly improved staff workflow and automated numerous tasks
- Implemented **agile methodology** into development process, managed development cycles, and trained employees on **Asana** to organize workflows and create sprints for upcoming deliverables
- Developed **Python parser** to automate data collection by retrieving and storing data from various sources into **IBM Db2** database and delivered parsed data to front-end through **Django** and **AngularJS**
- Identified and resolved several bugs of an existing 3rd party mobile native application with **Node.js** backend on both **Android** and **iOS** platforms

Summer Analyst, CIBC FirstCaribbean International Bank; Bridgetown, Barbados

Summer 2013 - 2016

- Built a model in **Microsoft Excel** using **VBA** to calculate the weighted average life and cost of funds required when pricing a loan; model is now used for all loan pricing calculations at CIBC FCIB
- Provided extensive **quantitative** and **qualitative analysis** to support approval of a USD \$78m loan in the hospitality/tourism sector; client's funding deadlines were met as well as the quarterly targets of the Investment Banking team
- Collaborated with credit risk department in transition to new credit analysis program by ensuring customer data was accurately transferred to the new system; department successfully transitioned to new program at end of 2014
